Foreword

State, Tribal, and Local Programs, Heritage Preservation Services, provides funding assistance to communities across the country in support of responsible historic preservation approaches and practices.

Comprehensive Preservation planning is a process that organizes preservation activities for historic properties in a logical sequence, from identification, to evaluation, registration, and finally, treatment. It provides for the protection of significant properties, preserving them in place. Successful planning involves early and continuing public involvement in the decisionmaking process about what is preserved and how it is treated, used, and interpreted.

The Historic Preservation Fund (HPF) provides matching grants-in-aid to the States, Territories, and the National Trust for Historic Preservation to assist them in their efforts to protect and preserve properties in the National Register of Historic Places. All HPF-assisted activities must meet Standards set by the Secretary of the Interior.

The Tribal Preservation Program has become extremely successful within this decade. Responding to the needs of Indian communities across the country, the program helps Indian tribes participate more fully in the national historic preservation program. Direct grants often give tribes the initial resources required to increase their capacity to preserve their unique historic resources.

Local governments may bolster their preservation efforts by achieving Certified Local Government (CLG) status. The CLG Program is a model local, state, and federal partnership that promotes preservation at the grassroots level across the nation. The National Park Service and the State Historic Preservation Officers provide valuable technical assistance and small matching grants to hundreds of diverse communities whose local governments are endeavoring to protect significant community properties for future generations.

The publications in this listing have been developed to assist community heritage activities for a broad constituency.

State, Tribal, and Local Programs

State, Tribal, and Local Programs, Heritage Preservation Services, is responsible for HPF grants management; state program review; the certified local government program; tribal historic preservation programs; and comprehensive historic preservation planning.

Standards and Guidelines

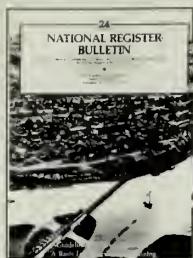

The Standards and Guidelines, prepared under the authority of sections 101(f)(g) and (h) and section 110 of the National Historic Preservation Act of 1966. They are intended to provide basic principles and useful advice about a variety of archeological and historic preservation activities and methods, from planning to treatment.

The Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation.

- The Secretary of the Interior's Standards for Preservation Planning and Guidelines for Preservation Planning.
- The Secretary of the Interior's Standards for Identification and Guidelines for Identification.
- The Secretary of the Interior's Standards for Evaluation and Guidelines for Evaluation.
- The Secretary of the Interior's Standards for the Treatment of Historic Properties (36 CFR 68). 1995. Leaflet.

The Professional Qualification Standards, which are part of the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation, define minimum education and experience required to perform identification, evaluation, registration, and treatment activities. They may be requested separately.

- **Professional Qualification Standards (36 CFR 61).** Developed to ensure that a consistent level of expertise is applied nationally to the identification, evaluation, registration, documentation, treatment, and interpretation of historic and archeological resources.
